Professional Summary

Third-year Computer Science student focused on software development and engineering, with hands-on experience in building full-stack applications using the MERN stack and Next.js. Proficient in creating responsive, user-friendly applications with tools like TailwindCSS and shadcn. Passionate about solving real-world challenges through software. Seeking opportunities to contribute to innovative teams and open-source projects.

Top Projects

Shope E-commerce
GitHub: github.com/jinzotun/shope   *Technologies: React, Express, MongoDB, TailwindCSS*

- Developed a dynamic e-commerce platform with features such as product browsing, purchasing, and order tracking.
- Designed an Admin Dashboard for streamlined product and order management.

Nook Reddit Clone
GitHub: github.com/jinzotun/nook   *Technologies: React, Express, MongoDB, TailwindCSS, TypeScript, shadcn*

- Created a Reddit-inspired social media application with a secure authentication system.
- Implemented a voting system and responsive UI focused on enhancing user experience.

Education

Bachelor of Computer Science
Faculty of Science and Technology, Sidi Bouzid   *Sept 2022 – Expected May 2025*

- Relevant Coursework: Data Structures, Computer Architecture, Machine Learning Algorithms, OOP.

Technologies

- **Programming Languages:** JavaScript, TypeScript, C, Java, Python, SQL.
- **Frameworks:** React.js, Next.js, TailwindCSS, Express.js, shadcn, sanity.io, Drizzle.
- **Cloud/Hosting:** Azure, Firebase, Vercel, Netlify.
- **Database:** MongoDB, MySQL, Neon.
- **Tools:** Git, GitHub, JIRA, VS code, Postman.

Soft Skills

- **Problem-Solving:** Adept at analyzing challenges and implementing effective solutions.
- **Adaptability:** Thrives in dynamic environments, quick to learn new technologies.
- **Team Collaboration:** Strong communicator, experienced in cross-functional teamwork.
- **Time Management:** Capable of meeting deadlines with quality work.
- **Attention to Detail:** Ensures code quality and application usability.
